Morning Oregonian.

VOL. XVIII—NO. 232. PORTLAND, OREGON: FRIDAY, NOVEMBER 1, 1878. PRICE—TEN CENTS.

GENERAL NEWS.

(BY TELEGRAPH TO THE OREGONIAN.)

White's Plan to Force a Gold Standard.

NEW YORK, Oct. 31.—A notable article by Horace White in the November *International* shows, presents a strong argument to show that the law making silver a legal tender has the effect to make resumption in coin, or resumption in silver only, after a little while, certainly an attempt to conduct the business of the country upon a double standard. The result in putting a premium upon gold, driving it out of circulation, embarrassing business and heavily taxing the people. He urges as a remedy that the banks arising through the New York clearing house shall, after the 1st of January, refuse to receive silver on deposit and thus force resumption in gold by making gold or its equivalent the only bankable money. This, he claims, will make gold the circulating fund of commerce, despite legal tender enactments by congress. He argues that the banks will be compelled to put silver into the limbo of unsurrent funds, sooner or later, and urges them to do so promptly, as it will render futile any future of legislation for maintaining gold resumption. He points out that this course will also make greenbacks uncurrent as they are eventually receivable in silver only, and so they will circulate only for government disbursements and the payment of taxes.

Prices of Staples in New York.

NEW YORK, Oct. 31.—The fact that prices are now below the specie level is made quite clear by an article in a commercial paper. Cotton has not been so low in twenty-seven years as last week. Cotton has not been as low in twenty-three years; nor corn since 1861, except in June, 1861; nor mess pork since 1862. Prices generally are 15 per cent lower than May 1st, and over 18 per cent lower than in 1866.

The Russian Barangues the Red Shirts.

LONDON, Oct. 30.—A *Journal's* letter received this afternoon from Charleston says Wade Hampton, in a speech delivered there to a large gathering of the red shirt Democracy, implored them to use every effort to keep peace during the remainder of the campaign and especially on election day. He did not want to have to interfere. He stated no riot or bloodshed should be allowed to vote. As for Democrats they should be unmolested. The Republican party would attempt to intimidate the negro, and he himself had been approached by many prominent Republicans among them a brother in-law of a member of President Hayes' cabinet, on this subject.

Murder of a Lady School Teacher.

RICHMOND, N. Y., Oct. 30.—The body of Miss Mary Meban, a middle-aged school teacher was found in a canal near the dry dock last night. Mrs. Mehan was kidnapped from her home on Richmond Sunday night. One of the kidnappers is arrested and confesses his guilt. He says that the woman was murdered and her body thrown into the water.

Will Start at West Point.

NEW YORK, Oct. 30.—The board of investigation of the Fitzjohn Porter case has adjourned to meet at West Point December 18th.

The Tilden Income Case.

NEW YORK, Oct. 30.—In the U. S. circuit court, Commissioner Gamble, the case of the United States against Samuel J. Tilden, of New York, was reached this afternoon. The only witness examined to-day was N. Y. Hutchinson, secretary and treasurer of the Pittsburg, Fort Wayne & Chicago railroad, who testified that between the years 1871 and 1872 $50,000 had been paid Tilden for professional services rendered him. He also testified that Mr. Tilden from time to time lent different sums of money which he invested in railroad enterprises, and the dividends had been sent him from time to time. The amount of investments and loans could not be definitely stated without the books.

Anderson Reveals.

VICKSBURG, Oct. 30.—The *Press* to-morrow will publish a sworn statement of Jas. Anderson, ex-supervisor of East Feliciana parish, made to-day before a notary public of this city, repeating the authenticity of the Anderson-Weber letter, alleged to have been written by the present secretary of state to Anderson and Weber in New Orleans on the 20th of November, 1876, and other matters connected with the Potter committee. It sets forth that in June, 1878, after Weber had testified before the Potter committee in Louisiana affairs, he was in Philadelphia and met Weber, who, in the course of a long interview, stated that he was in possession of a letter which the said letter and would testify in favor of the Democrats before the Potter committee for the sum of $10,000, that Anderson repeated the conversation to Col. Sypher, an attorney of this city, a personal friend and college chum of Clarkson Potter, and that on the day following Anderson and Sypher went to Washington. Weber declined to testify for the reason, giving as a reason that the committee managers whom he names would not treat him as he demanded. On the 22d June Weber informed Anderson that the arrangements had been made and he was ready to testify, which he did on the 24th July. Weber then showed Anderson a letter received by him from Sherman, and Anderson then compared the same with an autograph of Sherman's in Washington, and expressed to Weber a doubt of its genuineness. Weber goes on to explain variations in the testimony of E. L. Weber and the efforts to fasten the letters upon the latter. It quotes by name quite a number of the members of the Potter committee and of the National Democratic committee.

The New York Election.

NEW YORK, Oct. 31.—The anti-Tammany movement in this city is becoming very formidable and their betting men are wagering considerable sums on Cooper's election as Sheriff next Tuesday. But there are so many combinations that nothing on the face of the events appears to justify public betting. Evidently the Republican machine managers are now trading with the Republican managers in the combination agreeing to give its local support to return for votes for Republican candidates to assist Senator Conkling. Kelly was selected to negotiate with the Republican managers and was forced to accept the overtures the machine had hoped, in view of the defeat last winter on the money question, to enable a combination with the Democrats giving them congressmen in return for Tammany's support of the straight money platform of the Democracy and Conkling's subservient money speeches. Finally the Democratic managers took possession of the anti-Tammany movement and affected the trade combination and affected the trade as fully declined.

Kelly's Situation.

NEW YORK, Oct. 31.—The generally accepted view of the unfortunate military men and civilians who recommended Gen. Pope's evasion of the order to testify in the Fitzjohn Porter case is that they were unwisely for his own good. It would be awkward for him to support his former testimony. Pope says his refusal has given very serious occasion against himself. The board's decision admitting in evidence all the statements affecting Porter's case, and filed in the war department, establish a wide and important difference between Pope's statements at different times which his refusal to testify now does not explain away. Porter has the opportunity to reconsider the reports the decision giving the closing argument in the case on the ground that Porter has the right to show that his conviction rests on the issue, as the onus rests on the fact that Porter has the ability will print a review of the decision for Porter and file it with the judge advocate, to enable the latter to prepare his answer, and either Choate or Bullitt will conclude the case with an argument for Pope.

WASHINGTON CITY.

The Four Per Cent. Loan.

WASHINGTON, Oct. 30.—Subscriptions to the four per cent. loan to-day $523,000.

International Bureau of Weights and Measures.

WASHINGTON, Oct. 31.—The president has officially promulgated through the state department, a convention which has been ratified between the United States and all nations of Europe, except Great Britain, together with most of the South American republics, providing for the establishment and maintenance at Paris of an international bureau of weights and measures.

Purchase of Silver.

The secretary of the treasury has opened bids for supplying 400,000 ounces of fine silver. The amount purchased was less than 400,000 ounces. The price ranged from ½ to ¾ cent below the London rate.

Postal Expenses.

The annual report for the fiscal year ending June 30, 1878, of J. M. McGrew, auditor of the treasury, for the postoffice department, has been completed. The aggregate of postal revenues and grants from the treasury during the year was $34,585,109, and the expenditures $34,165,084.

Bank Suspension.

WASHINGTON, Oct. 31.—The German-American National Bank, which grew out of the German-American Savings Bank and occupied the same building, suspended this morning. The German-American Savings Bank has also closed its doors and put up the following notice: "Owing to the suspension of the German-American National Bank, this bank is forced to close." Officials of the savings bank declare their institution is sound. Both banks were owned and patronized principally by Germans, and the suspension causes much surprise. Excited crowds surround the building.

PACIFIC COAST NEWS.

CALIFORNIA.

The Georgia Inquiry.

SAN FRANCISCO, Oct. 31.—The board of U. S. steamship inspectors to-day began an examination of witnesses regarding the loss of the steamer *Georgia*. The first, second and third assistant engineers were examined, but the testimony will not be made public until the arrival of Capt. Howard. Several cabin passengers testified that the discipline of the ship was good; they had not seen the captain under the influence of liquor, though some of them heard talk to that effect. The surgeon of the *Georgia* testified that he saw the captain after the wreck, when he was sober. One of the cabin passengers testified that a portion of the steerage passengers and crew got drunk after making a landing. The general evidence was to the effect that the work of saving life and property was conducted in a proper manner.

SAN FRANCISCO, Oct. 31.—In the investigation of the circumstances attennant upon the loss of the steamer *Georgia* the first witness examined to-day was H. Hennessy, purser of the *Georgia*. His testimony was to the general effect that the captain and officers of the ship were attentive to their duties, and that the charge of drunkenness against the captain was unfounded. Herman J. Bernhardt, a steerage passenger, was next called, and testified to the presence of a lady cabin passenger in the captain's room about the time the ship struck, and the intoxication of the captain. But his testimony was in many respects so loose and contradictory as to raise a serious question as to its real value. He stated that the other officers were all right, with the exception of the surgeon, who indulged in abusive language to passengers while preparations were being made to abandon the ship, but that on reaching the shore he changed his manner and subsequently conducted himself properly. He also testified that due care was taken to insure the safety of life and property, and comfort of passengers subsequent to the accident.

Chinese Pirates Attack a House in Hongkong.

SAN FRANCISCO, Oct. 31.—The steamer *Gaelic* arrived early this morning from China and Japan. She brings news of a remarkable affair which recently occurred in Hongkong. On the night of the 25th of September a band of pirates landed and attacked the house of a wealthy Chinaman who was supposed to keep a large amount of treasure on hand. Their plans were evidently carefully laid and the neighborhood reconnoitered. Before the pirates had attained their object, however, they were attacked by the police and a regular fight ensued, lasting some hours, in which one of the pirates was killed and many were wounded on both sides. The freebooters finally made off in their boats. Great excitement exists over the affair.

The Southern Pacific Railway.

The Southern Pacific Railroad Company, of Arizona, of which the late David D. Colton was president, has been reorganized. C. F. Crocker was elected president, *vice* General Colton, deceased, and David Harer, a member of the board of directors, in the place of Crocker.

Pinney Testifies in the Spaulding Case.

In the trial of ex Paymaster Spaulding in the circuit court to-day George M. Pinney took the witness stand for the defense. The witness instanced cases where certificates were delivered to parties from whom goods were purchased by the contractor as security for such purchase, and when the bill was paid the certificate was allowed to remain in the hands of the merchant. There is no obligation on the part of government to pay a bill until it comes back from Washington. These certificates were never made by me with any view of obtaining money from the government. Did not think at the time I issued the paper that it bound the government, or that the government could have any recourse upon me. I never paid Burr the money I borrowed, and I don't think Mr. Carr has done so. I wish to say in the matter of these certificates that I had the entire charge of the certificate business; seldom a certificate went out of the office except through my hands. I kept a memorandum of the certificate business in my own private office. The certificate business was extra business.

Dividends.

The October dividends of the local corporations were; Banks, $53,300; gas and water companies, $143,300; insurance companies, $74,500; street railroad companies, $50,000; powder companies, $28,000; mining companies, $544,800; miscellaneous companies, $120,900. Total, $860,900.

UTAH.

More of the Miles Bigamy Case.

SALT LAKE, Oct. 31.—In the Miles case today Miss Owens, the second wife, testified, and the prosecution closed the case. It appears that Miles went to England as a missionary and brought Miss Owens to this country together with his mother. When they had been in this country about three weeks it was understood that the marriage was to take place here according to the ceremony of the Mormon church. Miss Owens had been a member of the Mormon church two years and the parties looked upon the advice of the president of the church as right and conclusive. It was claimed by the defence that the marriage with Miss Owens only had been proven and that witness was incompetent to testify. But the evidence was allowed to be admitted that the defendant had occupied an apartment with her the night succeeding the marriage. The pitiful pleading face of this English girl was enough to stir the heart of any but a savage, but there was no hope for her from the investigation but to prove her shame.

Case Closed.

The examination of Miles, the bigamist, has closed and defendant bound over to await the action of the grand jury in the sum of $1,500.

MEXICO.

The Washington Minister--Reception to U. S. Merchants--A Presumptive Officer.

CITY OF MEXICO, Oct. 22.—It is said that Senor Zamacona will remain at Washington indefinitely.

The government has commissioned Gen. Riva Palacio, the minister of public works, to extend a proper reception to a party of Chicago merchants who intend making an excursion to Mexico.

Lieut.-Col. W. Garcia has been tried by general court-martial and found guilty of a violation of the neutrality laws, he having pursued a body of revolutionists into the territory of the United States.

EUROPEAN NEWS

Plague and Famine in Morocco.

WASHINGTON, Oct. 31.—The U. S. consul at Tangier has transmitted a dispatch to the state department, giving an account of the fearful ravages of cholera in the interior of Morocco. The misery among the people is great. Business is almost completely paralyzed, and the cholera is sweeping over the middle and southern provinces. Hundreds are dying of starvation, and all the miseries of small-pox and malignant fevers add to their horrors. Never before has Morocco passed through such a fearful ordeal. All the leading Israelites and many Europeans have fled panic stricken. Wild and uncertain rumors of the ravages of the pestilence in the interior, which are brought daily to Tangier by refugees, add to the general consternation. While immense numbers of persons are starving in the very streets of Tangier, an I merchants are selling all breadstuffs at cost, the authorities still persist in levying a tariff of 10 per cent. on all imports of provisions. Add to all these fearful visitations the further fact that neighboring countries have almost completely cut off Morocco from communication with the outside world, and no gloomier picture can be imagined.

Todtleben's Movements.

CONSTANTINOPLE, Oct. 30.—The porte has learned that Gen. Todtleben has arrived at Lula Bourgas and ordered the repair of bridges and the construction of barracks for winter quarters.

England and the Ameer.

LONDON, Oct. 30.—A dispatch from Simla states that England's ultimatum will summon the ameer to give guarantees for future good understanding. It is not thought the ultimatum will cause any delay, as the answer of the ameer must be received within a fortnight or three weeks. Preparation of the army is going on.

Confidential Exchange of Ideas.

A Vienna dispatch says: It appears that the powers are becoming aware of the danger of the Bulgarian insurrectionary movement, which was evidently carefully organized months beforehand, and have opened a confidential exchange of ideas on the subject.

Protectionists in Germany.

BERLIN, Oct. 30.—A dispatch reports that a general meeting of German commercial corporations adopted by a vote of 54 to 40 a protectionist motion advocating the establishment of a special board of merchants, manufacturers, financiers and others, to advise the government on mercantile matters. The government is likely to view the project favorably.

The Oldham Factories.

LONDON, Oct. 30.—The *Times* in its financial column remarks that the world's capital of the cotton mills at Oldham operated on limited liability system four million six hundred thousand pounds. Of this sum but little more than one million pounds has returned any interest for a year, and considerably over half the capital is borrowed.

The "Telegraph" on the Situation.

LONDON, Oct. 31.—The *Telegraph* says: "Machinations which threaten the fulfillment of the European settlement are closely watched, and will be thwarted by the resolute Pig ladies of Lord Beaconsfield's government, with the loyal support of France and Austria and the approval of Germany. The treaty of Berlin will be sustained to the letter."

The Bank of England.

Bullion in the Bank of England increased £1,200,000 during the past week. The proportion of reserve to liability is 33½ per cent.

Church Appointment--Cullen's Successor.

NEW YORK, Oct. 31.—Pope Leo XIII. has appointed Doctor Gilooly, nineteen years bishop of Hiphin, to the position of apostolic delegate from the Holy See to the United States and Canada. The statement that the pontifical secretary of state will consult with the British government before appointing Cardinal Cullen's successor recalls former reports that an understanding had already been arrived at between Great Britain and the Vatican with a view to pressing Irish dissatisfaction. The appointment, therefore, is expected to have an important political significance.

SHERMAN ON RESUMPTION.

An Interesting Letter on the Condition of the Treasury and the Note Circulation of the United States and Other Countries.

WASHINGTON, Oct. 31.—Secretary Sherman has written the following letter in regard to the condition of the treasury for resumption, &c.:

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY, WASHINGTON, D. C., Oct. 31, 1878.

J. Leroy H. Dodd, Buchanan, Michigan—SIR: I am in receipt of your letter of the 29th inst., making certain inquiries as to the condition of the treasury for resumption and the amount of paper circulation *per capita* in this country and the principal countries of Europe. In reply I have to inform you that on the 1st inst. the coin balance of the treasury was $282,559,546. This entire amount, however, was not available for resumption purposes, but subject to liabilities as follows:

Interest due and unpaid	$6,545,599
Debt on which interest has ceased	12,734,920
Interest thereon	578,295
Coin certificates, gold	32,826,000
Coin certificates, silver	1,818,070
Cuckalmed interest	9,847
Unmatured bonds called for resumption	41,530,000
Total	$98,427,731

Leaving for resumption purposes $184,231,865. The coin receipts into the treasury will probably exceed by a considerable amount the coin payments between now and January, 1879, so that at least the above balance will then be available for resumption purposes. It should also be borne in mind that meanwhile there is no probability of the entire coin liabilities being presented for payment. As to the paper circulation of European countries this department has no information except what can be obtained from publications open to all.

The *Economist* of Sept. 24, 1878, the latest at hand, states the amount of paper circulation of the banks of the United States and the amount retained in the banking department of the Bank of England to be $43,956,873. The circulation of the Bank of France, which alone in France has authority to issue notes, to be on Sept. 5th, £94,710,000, and that the Imperial Bank of Germany on Sept. 7, had £30,415,000 sterling. It is understood that some country banks of Germany have authority under certain restrictions to issue notes, but as the amount is not stated in financial publications, it is believed to be inconsiderable. Reducing these amounts to the currency of the country, the per capita of circulation appears as follows:

Country.	*Circulation.*	*Population*	*Per Capita*
France	$60,967,500	36,905,788	$12 48
United Kingdom	213,965,000	33,474,000	6 39
Germany	148 915,000	42,727,360	3 46
United States	688,597,275	47,000,000	14 65

It will be seen that the aggregate as well as per capita amount of paper circulation is larger in this country than in any of the other countries named, and largely in excess except that of France. In that country, however, the circulation has been reduced to the amount above stated since November, 1873, from $602,000,000,—a reduction of $131,-093,000, while in the same period the metallic reserve of bank has increased from $146,000,000 to $435,000,000. Very respectfully,

JOHN SHERMAN, Secretary.

A Short Catechism

In reply to all charges of forgery in relation to the cipher, the New York *Tribune* triumphantly puts these inquiries:

If the cipher dispatches were forged, what responsible person dares to so assert?

If a single important dispatch has been attributed to the wrong person, what one of all the copercencers has the courage to name that dispatch?

If any one of them has been wrongly translated, why does not the person by whom it was sent or the person by whom it was received produce the key?

If anybody thinks the translations erroneous, wholly or in part, why does he not produce another key or interpretation which will fit?

FIFTY DOLLARS REWARD.

I will pay the above reward for the conviction of any party or parties who may sell dried fruits purporting to be dried by the Plummer Process that are not so dried. It is the duty of every merchant and citizen to see to it that our fruits are kept up to the proper standard. It is well known that fruits properly cured by my process have no equal in the world, and I propose to protect them against all bogus dried fruits.

W. S. PLUMMER.

WASHINGTON TERRITORY.

Large quantities of anthracite coal are said to exist in W.T. southeast of Mount Rainier.

The Whitman County Wool Producing Association will meet in Colfax on Saturday, Nov. 9, 1878.

Walla Walla river has been quite high for some days past and is dangerous fording at some of the crossings.

M. F. McNatt of Duwamish river, has raised a potato which is twenty-two inches in circumference and weighs just five pounds.

J. K. Andrews of Seattle, in attempting to get on the train at Newcastle while it was in motion a few days ago, was thrown to the ground, and in the fall one of his feet went under a car wheel and was badly lacerated.

Independent: The farmers of Clarke county, who are busy digging potatoes, report the yield much better than was at first expected. The dry weather of the past summer cuts the yield down fully one-half below the average in good years.

A Walla Walla paper says there are about five hundred daily and weekly papers delivered by carriers in that city every day. This for a place of 3,000 inhabitants is a liberal patronage, and shows that it has an intelligent reading community.

W. W. *Statesman*: We learn that an immigrant, name unknown, was thrown from his wagon near Waitsburg and kicked by a mule on the temple, and instantly killed. It appears that the forward wheel of the wagon went into a rut in the road, throwing the man from his seat between the team and the wagon.

Seattle *Intelligencer*: The total amount of Seattle coal received at San Francisco from January 1, 1878, to October 16, 1878, was 83,-339. Australia, British Columbia and Mount Diablo are the only mines that made a better showing, and we may overtake them yet before the year is out. Seattle coal demands $6 per ton and upwards from the ship's side.

BAPTIST STATE CONVENTION

One who is in attendance at the Baptist state convention which convened yesterday at Oregon City sends the following account of the proceedings:

A full delegation was present. At 10:30 A. M. the convention was called to order by the chairman, Rev. J. Baker, of Salem. A half hour was spent in devotional exercises. After this the following officers for the ensuing year were elected: Chairman, Rev. A. J. Hunsaker, of McMinnville; vice president, Rev. J. C. Richardson; secretary, Rev. S. C. Price, of Eugene. Then committees were appointed to arrange an order of proceedings.

A programme was then adopted upon which the convention will act through this session.

Meeting then adjourned to meet at 2 P. M.

The friends had spread a bountiful dinner in the basement of the Baptist church, which was by no means a small part of these preliminary proceedings.

This annual meeting now in session bids fair to be one of the most interesting as well as the most important meetings of the Baptist denomination held for some time.

The convention will hold through this present week and over Sunday, until Monday evening.

The session will open every day promptly at 9 o'clock A. M. During these meetings sermons are announced to be preached by Bros. A. S. Coats, of Portland; J. C. Baker, of Salem; S. C. Price, of Eugene; S. Wells, of Gervais, and others. More to-morrow.

It has been said by Tony that Ladd & Bush were elected treasurers of the state agricultural society because the society had borrowed money of them. The fact is they were elected because the society had been paying $300 or $400 a year for a treasurer and Ladd & Bush, in order to do the society a favor offered to keep the account without charge,—the only expense being for services of a man at the fair grounds to pay premiums at the close of a fair, which has cost the society not more than $25 a year.

TO SHIPMASTERS.

Masters of vessels coming into the Columbia are hereby informed that they can engage all their seamen at the Chicago House, Astoria.

A. P. HOTALING, 431 Jackson st., San Francisco. E. O. LORD, 25 Front st., Portland.

The Daily Oregonian.

FRIDAY MORNING NOVEMBER 1 1878

NEXT CONGRESS

On Tuesday next twenty nine states will hold general elections The result will be of interest ch efly on account of the political complexion it may give the next congress That the house of representatives will con tain a Democratic majority there can be no doubt How large it will be is a question of some importance The states which have already elected congressmen have chosen 28 Republicans 20 Democrats and six Nationals The states which are to elect next Tuesday are thus represented in the present house

	D	R.		D	R
1 N Hampshire	1	2	16 Nevada	0	1
Vermont*	0	3	1 Maryland	6	0
4. Massachusetts	2	9	18. Virginia	8	1
5 Rhode Island	0	2	19 Kentucky	10	0
7 Connecticut	3	1	20 Tennessee	8	0
9 New York	16	17	21 North Carolina	8	1
6 New Jersey	4	3	22 South Carolina		
7 Pennsylvania	19	17	23. Georgia	0	0
8 Delaware	1	0	24 Florida	1	1
9 Illinois		11	25 Alabama	8	0
10 Michigan		2	26 Mississippi	6	0
11 Wisconsin		5	27 Arkansas	4	0
12. Minnesota	1	3	28. Louisiana	5	0
13 Missouri	9	4	29 Texas	6	0
14. Kansas	0	1			
15 Nebraska.	0	1	Total	132	104

*Only one district to elect in this state

In the states still to elect the Democrats have 28 majority in the present house and in those which have elected for the next house the Republicans have a plurality of 8 Should calculation be made on this basis the Democratic plurality in the next house over the Republicans would be twenty But it is likely to be more In Pennsylvania New Jersey Michigan and other states the Republicans are likely to lose several members and may lose one or more in Cahfornia which will not vote till September of next year As an offset to this the Democrats are pretty badly broken up in several southern states but if Independents are elected there, they will probably be of National proclivities and can hardly be relied on to act with the Republicans. As a matter of fact, the National movement is a sort of side show to the Democratic party, and its members in congress on all important questions can affiliate with the Democrats far more easily than they can with the Republicans Many sagacious political observers are of opinion that by 1880 the financial question will cause a re cast of parties It was observed in the recent election in Ohio that many greenback Republicans affiliated with the Democrats and many hard money Democrats passed over to the Republicans A square issue on this question will cause no inconsiderable readjustment of party forces The country will however when the issue is presented free from collateral questions go for real money and sound principles of finance Party managers and platform makers will not be able to dodge it

SECESSION PROPOSED

In British Columbia they have their local politics organized on the railroad question A leading condition under which that province consented to come under the Dominion government was the promise that the Canadian Pacific railroad should be built, with its western terminus somewhere on the waters adjacent to Vancouver s Island Now it need not be said that construction of this road is an enormous undertaking The present resources of the Dominion are inadequate for the prosecution of a work so vast and in consequence the Dominion parliament has declined to undertake the fulfillment of the promise on which British Columbia was induced to come into the union The majority party in the province now insist that the pledge shall be redeemed by commencement of work in earnest for construction of the road, or separation will be demanded as the alternative. The Victoria *Standard* the organ of Mr. De Cosmos, who has just been elected to represent the Victoria district jointly with Sir John Macdonald in the Dominion parliament, urges this view, and says that Sir John is prepared to accord it. It adds His accepting a seat for Victoria carries with it an engagement to support the railway policy of the province Sir John is therefore pledged at this moment to commence railway construction before 1st May next or advocate separation It can not be that the Dominion will seriously undertake this great work now It is not prepared to do so We shall see, therefore if the alternative of secession will be insisted on

If the opinions and inconsistencies of the *Standard* were a matter of any consequence we might quote from it to show how, on the 16th ult., it published an editorial saying that 'the bill pending in the legislature to establish a separate supreme court ought to pass," and that 'there was no want so constantly felt as that of a separate supreme court, '—following these statements with a long essay on the inconveniences and evils of the old system how on the 22d after the bill had passed, it published another editorial stating that it was the most important act of the session and urging Gov Thayer to appoint none but straight Democrats, and how, on the 24th, after the appointments been announced, it let off a long growl because the governor had not done his duty by 'the party and at once began in its habitually dull, blockish and ignorant way to "argue against the constitutionality of the act But it wouldn t be worth while to follow it up through these feeble vagaries as its opinions on one side or another or on all sides at once, are reckoned of no value by anybody. The natural reward of vacillation inconsistency and ignorance is the general contempt of all people and parties

The argument of Horace White in the *International Review* showing how the law making silver a legal tender will operate to make resumption in coin resumption in silver only is undoubtedly sound but it is no new revelation It is just what every one who has looked into the question has foreseen from the first Only shallow people have supposed that it will be possible to conduct the business of the country on a double standard with silver coined at a value of 88 cents on the dollar In the end it will inevitably force a premium on gold and drive it out of the country

If Mr Tilden is to be held guiltless of any agency in or knowledge of the matters referred to in the cipher dispatches where did Pelton get the large sums of money he is said to pay for various electoral votes And where did that money come from Is he was actually sent to Oregon on the supposition that it was to be used to purchase a Republican elector to act with Grover And what one of the electors was it they were going to get? All these are interesting conundrums

At this delightful season of the rolling year says the Washington *Post* the fashionable mother of unmarketed daughters diligently devotes herself to the great annual work of her stock in condition for the Washington market

THE MURDERER HERE.

JOHNSON SAFELY IN THE COUNTY JAIL—THE STORY OF HIS TRAVELS—THE WAY OF THE TRANSGRESSOR IS HARD

James Johnson the robber and murderer who is known to have been the leading villain in the criminal enterprise by which O'Shea's pawn shop was robbed and its gray haired proprietor almost killed, and which resulted in the murder of Louis Joseph arrived in this city on Wednesday from Los Angeles California where he was arrested in charge of officer Hudson He was committed to the county jail and locked up securely in an iron cell where he was interviewed yesterday morning by a reporter of this paper

HIS STATEMENT

Johnson looks to be about 25 years of age and has a dare devil, bondfiam air but smiles while talking and speaks fluently and in a pleasant voice He said that he had recently received a good deal of attention from newspaper men and was sorry that he could not give them much news When questioned about his trip from Portland to Los Angeles he said that he simply traveled south and would give no details whatever of the trip except that he went through the mountains and did not stop at any town or house on the route When asked how he managed to live he answered Oh a man can almost always find something fruit or vegetables or something" He said that he was in Los Angeles two days before he was arrested In answer to inquiries from the reporter he said that he was 24 years of age and that he was a native of Maine, his father is dead and his mother living but where he declined to state His attention was called to the statements of Swords and Brown his colleagues in villainy which charged the lead ing part in the murderous crime to him and asked to give his statement of the transaction He laughed and said that it was natural enough that they should throw the blame on him, as the chances were that he would not be arrested and otherwise he certainly should have come back to deny their story and that they had fixed the business up so fine that it was entirely out of his power to do the subject justice

WHAT OFFICER HUDSON SAYS

Officer Hudson who brought Johnson from Los Angeles says that the prisoner told him that after Sword's arrest and his separation from Brown immediately subsequent, he went west into the forest where they had been before and started south the next morning following the mountain ridges and eating whatever he could find He held this course till he struck the Southern Pacific railroad, at a station called Major 101 miles north of Los Angeles. Here he worked a few days at carpentering, a trade which he learned during a sojourn at San Quinten, and then went by rail to Los Angeles, intending to go from there to Arizona At Los Angeles he stopped at a small hotel near the railroad depot, just outside of the city and as he was suffering from the ague intended to remain and rest a few days While sitting in front of the hotel on the second day after his arrival he saw a man whom he had known at San Quinten but thought that he was not recognized He was mistaken however for in less than an hour the chief of police came up and arrested him

JOHNSON'S ATTEMPT TO ESCAPE

The day before Hudson arrived at Los Angeles Johnson made a desperate effort to escape from the jail building in which he was confined and almost succeeded The story of the attempt is told in a long article in the Los Angeles *Express*, from which we extract the following An examination of the jail this morning disclosed a most astonishing result The division walls of four cells had been penetrated, admitting the occupants to the common apartment where they had in turn begun to dig through the outer wall It is thought that the first movement was to wrench out an iron bar fastened over the door of one of the cells, and that with this supported by a knife and possibly other tools they did their work The cells were lined with iron sheathing an eighth of an inch in thickness fastened with half inch bolts driven into the timbers to the depth of six inches These bolts were pulled out and the sheathing torn and twisted off to form an aperture large enough for the passage of a man's body In one instance the prisoners dug through a brick wall and tore off several planks which supported the iron With the four cells thus opened, the desperadoes began on the outer wall as stated but they had not removed much brick and mortar before they abandoned on rations It is probable that the man Johnson, the Portland robber and murderer, was the instigator of the plot and that he did most of the work first tearing his way out of his own cell and then through the adjoining one to gain admittance to the main room Tapia who is under conviction of grand larceny, and Waste confined on a charge of horse stealing were no doubt implicated with him Johnson probably knew that Officer Hudson of Portland, was on his way here to take him in charge and he probably thought he would make a bold break for liberty before it was too late In a visit to the jail this morning we found Johnson and Tapia chained to the floor in the "sweat room and the other refractories ironed and confined in one of the lower apartments Johnson will probably be taken out to morrow and started northward in charge of the Portland officer"

Johnson is an old offender having served two terms in San Quentin, from where he was released under the provisions of the Goodwin bill He will be tried in the circuit court some time during the ensuing fortnight.

It was recently discovered in New York that fifty cases of yellow fever have been treated in that city The *Star* says it has been kept a profound s cret out of consideration for the nerves of the more timorous class of citizens

The Daily Oregonian.

FRIDAY MORNING NOVEMBER 1 1878

CITY.

MOUNTAIN VS. JONES—The sessions of the state circuit court during the past four days have been occupied by consideration of the case of Thomas Mountain vs H L Jones in which plaintiff claims $11 000 as damages for alleged malpractice and neglect, of defendant, a physician of this city in his connection with the treatment of a serious fracture which has resulted in his (plaintiff's) permanent lameness Dr Jones demurred to the complaint, denying plaintiff's allegations and presenting a claim for $500 for professional services in the case Plaintiff denies that these services were performed and this is the basis of his charge of neglect Quite a large amount of testimony was taken after hearing a great amount of testimony as to the facts of the case and its scientific bearings the jury retired at 2 o'clock p m and after a short time, and at six came into court again with the inquiry If we find a verdict for say $2,000 or $3 000 for the plaintiff and another for the defendant of say $500, how would it be with the costs The court instructed them that the judgement of the costs would await the result of the action that if the defendant did not recover judgment for more than $500 the costs would be adjudged to him At 8 o clock the jury came in with two verdicts One was "We find for the plaintiff $1 300 The other "We find for the defendant $400 The court informed them that such a verdict could not be received and instructed them to return and adjust their verdict They did so and in a few moments returned with a verdict of $900 for the plaintiff The counsel for the defendant thereupon filed a motion for a new trial

TRINITY GUILD.—Yesterday was the sixth anniversary of the Women s Guild of Trinity church. The members assembled in the Sunday school room at 3 o clock P M for the transaction of business and the election of officers for the ensuing year The treasurer s report showed that there had been raised from different sources during the year $1 [illegible] 81 65 Of this sum there had been spent for repairs church debt, charity, etc $1 326 30 The election resulted as follows President, Mrs S B Green vice president Mrs. John McCraken, treasurer, Mrs Robert Hewett secretary, Miss Carrie Wilson The heads of the different committees—church decorations festivals and visiting the poor—are Mrs Judge Deady, Mrs. N. Corbett, Mrs DeHart and Mrs Mason We hope for the guild a year of as great success as the last.

SUICIDAL KILLED.—The dog which made such a savage attack on the little daughter of H. F. E. Lamb, superintendent of this division of the W U T Co, Wednesday evening of last week so shockingly about the face before any one could interfere, belonged to Capt. Thorne of the steamship *California* and soon after the distressing accident occurred the animal was shot It is hoped that the little one's disfigurement may be almost entirely effaced as she grows older The parents while they deeply deplore the shocking accident which has befallen their little darling are thankful that it is no worse Last even the child was resting as comfortably as could be expected under the circumstances

LUMBER.—Two hundred and forty four cases have been made the past month by Ingalls & Co., classified as follows Drunk and disorderly, 201, resisting an officer, 1 larceny, 15, murder, 2, assault and battery, 4 carrying a concealed weapon, 1, burglary 1 disturbing a nuisance, 1, discharging fire arms within the city limits, 1, threatening to shoot, 1 abusive language 4, contempt of court 2, selling liquor without license, 1, selling without license 1 violating ordinance No 2474, 1, interfering with an officer while in the discharge of his duty, 1 held for witness, 1.

ONE MORE UNFORTUNATE.—A dispatch received here from San Francisco last evening says "A man named T H Roscoe, from Portland, Oregon, committed suicide here this afternoon by shooting himself with a revolver, at No. 402 Broadway street Roscoe had no person s first grade teacher s certificate from California and other states papers were also found showing that he had resided at Tehama, in Northern California, during the earlier part of the year Roscoe has been at one time an inmate of the East Oakland lunatic asylum

SMALLPOX.—In consequence of the prevalence of this dreadful scourge we learn that a school in district No. 16 just south of Gladstone on the Macadamized road has been closed temporarily Mr Whitehead, who resides in the district, has lost two children by the disease and two more are down sick with it probably, one dangerously It is to be hoped that the course of this disease may be checked before it becomes general

THE JUDICIAL ERMINE.—Yesterday the resignation of Judge Shattuck of the 4th judicial district took effect Judge C B Bellinger who has been appointed by Gov Thayer to fill the vacancy, will don the judicial ermine this morning.

CHINAMAN INJURED.—Wednesday as some Chinamen were cutting down trees back of East Portland, one of them fell on and fatally injured Chu Yow He was taken to his quarters yesterday by his countrymen

SHIPPED BEFORE THE MAST.—Joseph Ladd, son of the late Robert J. Ladd, shipped on the *Herbert Black* for Hongkong Joe will go before the mast, and expects to be absent eighteen months.

STEAMER ELDER.—The steamship *Geo W. Elder* arrived at Astoria yesterday at 2 o clock and sailed for Portland at 4 P M and may be expected here at an early hour this morning

BRIEF NOTES.

Entertainments will appear at Reed s Opera House this evening.

The steamship *Great Republic* arrived last evening at Astoria.

Next Monday the regular November term of the state circuit court will convene.

The steamer *City of Chester* is announced to sail from San Francisco for this port Saturday

There will be a monthly meeting of the Woman s Foreign Missionary Society at No 106 Columbia street to morrow afternoon at 2 o clock

The steamer *Idaho* is announced to sail hence for Victoria Tuesday morning, Nov 5th at 5 o clock with mails and passengers.

A CARD.

PORTLAND Oct 31

EDITOR OF THE OREGONIAN

In your issue of yesterday you appear to desire to give the impression that a Chinaman had been murdered in the Joss House by order of a secret society Allow us to say there is no secret court in session and no one found dead committed suicide in the Joss House last week with consumption for a long time and was in very low spirits. He has relatives in the country who will not permit his wants and would not permit him to die without having the guilty arrested and punished He had tried to buy opium from the druggists who had notified the parties not to sell to him as they feared he intended to poison him

JOSS HOUSE.

AMUSEMENTS.

THE BENEFIT.—A fair audience was present last evening at New Market theater The occasion was the benefit and last appearance of Mr Scott Siddons The performance opened with the beautiful play of King Rene s Daughter in this piece the bewitching sustained the *rol* of Iolanthe the blind princess, with her accustomed grace, freedom and dramatic effect The support was quite passable This play was followed by the very entertaining comedy Our Boys Mrs Siddons personated the character of Mary Melrose Although she succeeded quite well in the personation of the character yet her effort cannot be recorded as one of her most pleasing and artistic dramatic performances since she has visited Portland This opportunity was scarcely up to the usual standard of excellence Mr Howard as Talbot Champney while perfect as to make up and general bearing seemed a little stilted and unnatural Mr Lind seemed to lack feeling and vivacity as Chas Middlewick Mr Wardell in Middlewick the sire of Champney did not bestow as much attention on his make up as he might and persisted in giving the audience glimpses of the British comedian Charles Allen made a very acceptable Sir Geoffrey, and sustained the role with becoming dignity Miss Kenton Violet Melrose may with regard to truth be characterized as a pleasing and successful impersonation in this piece was handsomely mounted and went smoothly throughout the evening, and at six came into court again with the inquiry If we find a verdict for say $2,000 or $3 000 for the plaintiff and another for the defendant of say $500, how would it be with the costs The court instructed them that the judgement of the costs would await the result of the action that if the defendant did not recover judgment for more than $500 the costs would be adjudged to him At 8 o clock the jury came in with two verdicts One was "We find for the plaintiff $1 300 The other "We find for the defendant $400 The court informed them that such a verdict could not be received and instructed them to return and adjust their verdict They did so and in a few moments returned with a verdict of $900 for the plaintiff The counsel for the defendant thereupon filed a motion for a new trial

TRINITY GUILD.—Yesterday was the sixth anniversary of the Women s Guild of Trinity church. The members assembled in the Sunday school room at 3 o clock P M for the transaction of business and the election of officers for the ensuing year The treasurer s report showed that there had been raised from different sources during the year $1 [illegible] 81 65 Of this sum there had been spent for repairs church debt, charity, etc $1 326 30 The election resulted as follows President, Mrs S B Green vice president Mrs. John McCraken, treasurer, Mrs Robert Hewett secretary, Miss Carrie Wilson The heads of the different committees—church decorations festivals and visiting the poor—are Mrs Judge Deady, Mrs. N. Corbett, Mrs DeHart and Mrs Mason We hope for the guild a year of as great success as the last.

LEAH THE FORSAKEN.—This piece in which Miss Dingon will open at New Market Theater on Monday evening is now in hands and receiving careful study Appropriate scenic and mechanical adjuncts are being prepared at a considerable expense Leah is one of Miss Dingon s greatest characters and with the stage improvements now under way and an increased and full stock company among which will appear several new faces will give a performance seldom equaled in Portland

THE COURTS.

PORTLAND, Oct 31 1878

STATE CIRCUIT COURT SHATTUCK J

A B Hallock vs City of Portland—Plaintiff s demurrer to the amended answer overruled

W K Beveridge vs S W Church—Sale confirmed

State of Oregon vs W H Allison—Defendant enters plea of no guilty

State of Oregon vs Charles Crawford—Defendant enters plea of not guilty

State of Oregon vs James Johnson Defendant arraigned and allowed until next Monday to plead

Thomas Mountain vs K E Jones—Cause on trial

VERDICT RENDERED.

The following verdict was rendered yesterday by the coroner's jury in the case of the Chinaman who was found dead a few days ago hanging by the neck in the rear portion of the Joss House on Second street We, the jury find that the name of the deceased was Ah Back that he came to his death by hanging at that in the opinion of this jury a crime has been committed in the case of the Joss House

Overcoats at Kohn s Winter apparel in profusion at Fishel & Robert s

Buchtel & Stolte make as fine work in the photograph line as any gallery in the United States, and the best in Oregon

The cheapest house of entertainment and the store where the lowest prices are asked for the best goods is at Ackerman Bros

THE BIVOUAC.—Mr I Brunckle will open the Bivouac at No 315 North Front street on Saturday evening November 2d

Bracelets and backcombs of every variety from 25c upwards at Mrs Chas Tichnor s, cor of First and Yamhill streets, Portland

The photographic display made by Abell at the Mechanics Fair won much attention He received the first premium at the State Fair for the very best cabinets cards and retouched photos

The excellent photo work that Davidson Brothers are turning out proves that while they have made the lowest prices they do not intend the quality of their pictures to be excelled They make cards for $1 50 and cabinets for $6 per dozen

THE GEM ASTORIA.—Completed with Peter Wilhelm s Astoria is a Ship Masters Reading Room where the latest shipping papers are on file Also Homeward and Outward Bound List Also, Agent for Geo W Wendt s Steam Tugs and Lighters Telegraph Office next door

INTERESTING TO LADIES.—Dickey s Creme de Lis has now been before the public for ten years during which time this beautiful preparation has met with the highest approval at the hands of the fair sex—being as all who have used it will verify the only perfect preparation of its kind Every ingredient entering the composition of Dickey s Creme de Lis is subjected to the most rigid test of modern chemistry to insure the uniformity and purity of its combination and neither time nor expense have been spared to make it perfect—it being well known to the public will appreciate and support a truly meritorious article Several new beautifiers under various names have lately started into existence but Dickey s 'Creme de Lis' has no competition in merit. Sold by all druggists.

SCOW BAY MURDERERS

The Seattle *Intelligencer* of the 29th contains the following.

A sailor on the Oliver Wolcott furnishes us with the following relative to the murder of Haight and his wife at Scow Bay near Port Townsend the particulars of which were received by telegraph and published at the time Thursday a half breed and an Indian were arrested for the commission of the deed and locked in the jail at Port Townsend It seems that there had been an old family quarrel which originated between the half bre d s wife and Haight s wife who was also a half breed The parties now under arrest were working in a logging camp near by Haight s ranch and they also had some trouble regarding a boom of logs The half breed had frequently stated that he would kill Haight within twelve days from the last trouble and on this test money he and the Indian were hired Both Haight and his wife were found in bed with their throats cut from ear to ear The Indian was found in possession of the knife with which the murder was committed and from all appearances was the weapon that was used in shedding the woman s blood The half breed s gun was taken to pieces and examined, and in it were found some pieces of lead corresponding in the scraps found in Haight s head and in searching the pockets of the half breed they found a pistol bullet mould and lead mixed with bits of zinc corresponding exactly with those taken from the dead woman s head It is considered in Port Townsend that the people and settlers generally about these two parties have no feeling one way or the other and a thorough search is being made for the evidence to be presented in this case at the trial which is to take place at Port Townsend

PRELIMINARY EXAMINATIONS

Since the above was in type the following letter has been received from Port Townsend under date 2d inst

The preliminary hearing of the prisoners Clayson and Davison charged with the double murder of Haight and wife at Scow Bay, began yesterday in Justice Court W M Harned Esq J P presiding The excitement over the late terrible murder still remains unabated every one seeming anxious to have the real assassins brought to justice However the happens to be one of those remarkable cases of circumstantial evidence which is so difficult to determine and although the evidence against the prisoners is very strong yet there are several things in their favor which it is impossible to overcome

In the absence of the prosecuting attorney While the case was conducted on the part of the territory by Messrs R K Smith of this city and W M Tirill of Snohomish City Messrs Bradshaw and Inman of this city for the defendants Davison being sworn to report the testimony in the case

Dr J F Minor was the first witness called and he was present during a portion of the time of the inquest examined the body of Thomas Haight found he had been wounded by fifteen shot fired from behind into the left side received at the base of the brain and producing instant death took shot from the wound they were irregular in appearance identified the missile produced in court from the close proximity of the wounds at entrance the murderer could not be more than six feet from his victim do not believe the missiles were ever perfectly round think the bod was dead from 36 to 48 hours when I examined it Examined the body of Mrs Haight found two wounds from a sharp cutting instrument clear across the throat severing all the large vessels also one very slight punctured wound a little to the right and above the other two a slight wound on the thumb of older date than the others and a gunshot wound penetrating the chin breaking the lower jaw and passing downwards to the neck the gunshot wound on this body as inflicted from a little above and Mrs. Haight must have been on her knees when she received it

Dr J M Gassaway on being examined deposed to about the same facts as the preceding witness only adding that the gunshot wound on Mrs Haight must have been made with a pistol

Daniel Thomas deposed to having seen the bodies at Scow Bay

Hon Wm Koster testified to hearing the prisoner Clawson make threats against the lives of both the deceased on account of family troubles David Courtney heard the prisoner Davison say he would fix Mr Haight so that he would puddle no more butter, also knew he (Davison) owned an old Colt s revolver

H J Wilder constable identified the various exhibits presented in court as those taken by the sheriff Charley Johnson identified a bullet found where Mrs Haight s head was lying when found L S Wyckoff was examined as an expert in the matter of the firearms and ammunition presented

It is thought likely that in the course of another day fresh evidence may be produced but up to the present the public mind is in perfect chaos as to the murderers from so many conflicting circumstances Both prosecution and counsel are doing their very best to ferret the matter out but the deepest mystery seems to surround it on every side

MODERN MIRACLES.

Dr C M Wood the well known healer returns to his practice in Portland after a rest of six months His great cures of men women and children some of which were published in THE DAILY and WEEKLY OREGONIAN during last winter has brought hundreds of letters from anxious sufferers desiring information as to the permanency of his cures In order to satisfy those desiring such information he will publish from time to time through THE OREGONIAN the original certificates of cures and when possible to communicate with such patients a certificate of their present condition $ 000 forfeited if every cure he has ever published was not genuine as stated

Dr Wood

Will heal the sick of chronic disease at corner of Washington and Front street, Portland All curable diseases successfully treated when every other method fails Dr Wood cures by animal magnetism and can point to the most wonderful cures ever performed by this method *No medicine or surgical instruments*—no pain whatever

Cure of Dyspepsia and Chronic Diarrhœa

For the benefit of suffering humanity I deem it my imperative duty to make known to the public what has been done for me by Dr C M Wood Having been a subject to dyspepsia for one half of 11 years, and continuing to grow worse until about four months ago when it ran into chronic diarrhœa and assumed a very dangerous condition—so much so that I found I would be compelled to stop my duties or find some relief, and having seen one of Dr Wood s circulars I concluded to consult him and finally to be treated by him for one month the result of which I give in a few words I feel that I am as sound as I ever have been and that so far as my disease is concerned I am perfectly cured JOHN R GURRY

Mailing Clerk Oregonian Office

PORTLAND Oct 31, 1878

This is to certify that the above disease for which Dr Wood treated me nearly one year ago has never returned and am as well to day as when the above certificate was written

The monetary movement in local circles is not very active the call from wheat buyers falling rather below what was expected on account of the discrimination on part of holders to sell at ruling rates Some inquiry is noted from parties making improvements on real estate which helps to keep up some life in the market Rates are easy at the figures given heretofore.

The dry goods trade is moderately good and prices are rather in favor of buyers who back their orders with cash or assurances of prompt payments

In the line of domestic produce a good deal of activity is manifested and though the great staple of breadstuffs is moving somewhat slowly for the season, a slightly better feeling in prices which has ruled for a few days may have a tendency to infuse the market with more life The vessels at hand to load grain are getting along slowly the number dispatched in September and October this year being 15 against 25 in the corresponding month last season Buyers have been more anxious to secure large lots of late and while no better offer than $1 55@1 57½ can be obtained for wagon or car loads a cargo would probably bring 3 to 5 cts per cental more The flour trade is active and holders are firm in their demands for full rates. Some important sales are noted on terms withheld Oats come forward in small lots and prices are steady at our quotations Barley is in demand and choice lots are quotable a little higher Mill feed, hay etc. unchanged Provisions are still dull, both in the home market and in San Francisco In fact the same is true of the entire country prices being lower than for several years past.

Potatoes are in liberal supply with a backward ness on part of buyers. Choice for table use are selling at 1c per lb in a jobbing way

Dairy products and poultry are in fair supply at our quotations Eggs in good demand at high prices.

The C. O. D. Grocery is now all the rage.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Private Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female He has also warned them against habits that would be likely to produce disease in plain and comprehensive language. But where he has found them crushed and broken down by disease mentally and physically he has restored them to health and happiness for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases Catarrh Bronchitis, and all diseases of the throat, and chest, by an entirely new system only known to himself Diseases of the kidneys and Urinary Organs including Spermatorrhœa, Seminal Weakness or premature loss of Manhood In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States Diseases of the stomach bowels liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief at once and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This secures in part to him great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines or instruments to any part of the country with full instructions and advice. Each letter requiring advice or list of questions must contain two postage stamps

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, is a member of the Medical men of the Medical Faculty in this State can testify

CAUTION!

Persons coming to Portland, requiring medical treatment of the proper kind who desire to consult with me will please beware of persons who may try to coax them away to other so-called Doctors, through pretended friendship for the patients Look out for them they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M BRENAN the Medical Lecturer, and read his sign on his door

Office, 63 First street, over McCormick's Franklin Bookstore.

BEAUTY:

OR, THE

Secret of a Fair Face.

An Item of Interest to Every Lady who Desires to be More Beautiful than she now is.

Unfortunately not one woman in a hundred is endowed with the charms of an American climate possesses that basis and starting point of all beauty, a pure and clear complexion What nature has thus denied art must be called upon to furnish It can be done It is done daily Prof W Hagan has placed beauty within the reach of every lady and daughter of Eve when he discovered that surprising article known in fashionable circles as the true secret of beauty, and called

MAGNOLIA BALM

The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion. It conceals all natural blemishes in the most surprising and effective manner It removes all roughness, erupti ns redness, blotches freckles and tan with magical power It drives away all evidence of fatigue and excitement It has a thin pleasant face beautifier It gives the complexion a dazzling purity and makes the neck fair and arms appear graceful, round and plump. It reduces a lean figure to fair look not more than they are old and changes the rustic maiden into a cultivated city belle.

The Magnolia Bal removes all blemishes as an evaporates every drawback to beauty, and, while it is harmless as water it is a life like in its effects that the closest observer cannot detect its use Ladies who want to make themselves attractive can make an absolute certainty of it by using Hagan's MAGNOLIA BALM, and we know of no other way. It is the cheapest preparation in the world all things considered and may be had at any drug store
